Education

Hi-Tech Institute of Technology

Bachelor of Science in Computer Science

Sep. 2024 – May. 2027

Bajajnagar, Maharashtra

Summary

Results-driven Bachelor of Computer Science student with a strong foundation in data manipulation, statistical analysis, and executive dashboarding. Proven ability to transform complex datasets into actionable business insights using Python, SQL, and Power BI. Experienced in streamlining supply chain operations and maintaining high data integrity in fast-paced environments. Dedicated to leveraging advanced AI tools and prompt engineering to build scalable, data-driven solutions.

Experience

Newtek

Supply Chain Operations Assistant

Nov. 2025 – Jan. 2026

Chhatrapati Sambhajnagar, MH

- Managed and reconciled daily inward/outward inventory for 500+ SKUs, maintaining a 99.8% accuracy rate in supply chain tracking and stock ledgers.
- Streamlined manual data entry processes for shipment logs, reducing documentation errors by 20% and saving approximately 5 hours of manual processing time per week.
- Collaborated with logistics teams to audit material movement, identifying and resolving discrepancies in physical stock vs. system data for 100% audit compliance.

Projects

SaaS Customer Retention & MRR Analytics | SQL, Python, Pandas, Power BI

May 2026

- Analyzed 10,000+ subscription records using SQL CTEs to calculate Monthly Recurring Revenue (MRR) and map lifecycles for 3 distinct user tiers.
- Developed an interactive Power BI dashboard that identified high-churn segments, providing data-driven strategies to potentially improve retention by 12%.

Regional Supply Chain Route Optimization | Python, NumPy, Pandas, Streamlit

April 2026

- Engineered a data pipeline to isolate statistical outliers in 5,000+ delivery logs, identifying bottleneck routes that caused 15% of total transit delays.
- Deployed a Streamlit application for real-time tracking, providing route optimization insights aimed at reducing regional fuel costs by 8-10%.

E-Commerce Conversion Rate A/B Testing | Python, Pandas, NumPy, Excel

March 2026

- Conducted statistical hypothesis testing (T-tests/Z-tests) to analyze 2,000+ user sessions, determining the 4.5% uplift impact of website redesigns.
- Segmented raw event logs to establish a 95% confidence interval, providing a scientific basis for marketing budget reallocation.

Technical Skills

Languages: Python (Pandas, NumPy), SQL, Excel (VBA, Pivot Tables).

Data Visualization: Microsoft Power BI (DAX), Plotly, Streamlit.

Tools & Infrastructure: Git, GitHub, Jupyter Notebooks.

AI & Specialties: Prompt Engineering, AI-Assisted Analytics, Statistical Hypothesis Testing, A/B Testing.

Achievements & Certifications

Data Science & Python Certifications

2025 – 2026

- Certified in **Data Manipulation with Pandas** via Kaggle (2026), demonstrating mastery in cleaning and transforming complex datasets.
- Completed professional **Python Certification** via Tutedude (2025), focusing on advanced programming logic and automation.

Languages

English, Hindi, Marathi
